

Great Skipper Ltd.

Results of tests as done at Servaco N.V. laboratories, Belgium, Feb. 23, 2005.

Fabric Specification Sheet			
PALAS – synthetic suede			
Fabric Composition:	Face: 100% Polyester, Back: 80 % Polyester, 20% Cotton		
Width	145 cm	Weight:	500 gr./lfm. 345 gr./qm
Recommended Cleaning Code:	W: Clean the fabric with a water-based product; such as the foam from a mild detergent such as Ivory Flakes, Glamorene, Brissell Foam, Upholstery Cleaner, and Tide have been found suitable for a non-solvent upholstery shampoo. Use sparingly and avoid over wetting. NOTE: Always test the cleaning agent to be used on an inconspicuous part of the fabric. Reverse cushions at least once a month, remove spills or stains immediately. Always blot, do not rub. For overall soiling have professionally cleaned.
